

MUDASSIR AHMAD

Full Stack Developer | MERN Stack | AI Integration

mudassir551080@gmail.com | +92-321-5837843 | Peshawar, Pakistan | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with proven experience delivering 3+ production-grade MERN stack applications and leading cross-functional teams of up to 6 developers. Specialized in scalable RESTful API design, AI integration using LangChain and OpenAI/Groq APIs, and building high-performance web solutions that reduce development cycle time by 30%+. Passionate about leveraging Generative AI to solve real-world problems with measurable impact.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, PostgreSQL

AI & Integrations: LangChain, OpenAI API, Groq API, Generative AI, Prompt Engineering

Tools & DevOps: Docker, Git, GitHub, VS Code, Cursor, Ollama, Claude AI

EXPERIENCE

Project Engineer (Academic Role)

Islamia College Peshawar | Peshawar, Pakistan

Nov 2025 – Apr 2026

- Led backend development for 3+ MERN stack projects, designing scalable architectures with clean separation of concerns, reducing codebase complexity by ~30%.
- Guided cross-functional teams of 4–6 developers on best practices, cutting frontend-backend integration bugs by 40% and ensuring on-time delivery across all sprints.
- Delivered 3 high-performance, data-driven web applications achieving 100% on-time completion, each supporting 100+ concurrent users with sub-300ms API response times.

Full Stack Developer

step2scientest · Contract | Abdara Road · On-site

Sep 2025 – Dec 2025

- Built and deployed 3+ responsive front-end applications at Step2Scientest, improving UI consistency and reducing reported UX issues by 30%.
- Mentored 20+ BSCS and BSSE students in full-stack web development, achieving an average assignment completion rate of 85%.
- Collaborated with a 4-member team to enforce coding standards and design patterns, accelerating feature delivery by 25% across 2 active projects.

EDUCATION

Bachelor of Science in Software Engineering

Islamia College Peshawar

GPA: 3.1 / 4.0

Expected Oct 2026

PROJECTS

AI-Driven Resume Builder, Analyzer & Interview Prep Platform [Live Demo](#)

Stack: React.js, Node.js, Express.js, MongoDB, OpenAI API, Groq API, LangChain

- Built a full-stack AI-powered career platform with 5+ core modules (resume building, analysis, ATS scoring, skill gap detection, interview prep), serving end-to-end job-seeker workflows.
- Engineered 10+ secure RESTful API endpoints for AI-powered resume scoring, skill gap detection, and dynamic interview question generation, achieving average response latency under 400ms.
- Optimized prompt engineering with OpenAI/Groq APIs, improving suggestion relevance accuracy by ~35% and reducing token consumption by 20% through structured prompt templates.

Full Stack E-Commerce Platform [Live Demo](#)

Stack: React.js, Node.js, Express.js, MongoDB, JWT, bcrypt.js

- Developed a production-ready e-commerce platform with 5+ core features including JWT-based user authentication, dynamic product filtering across 50+ SKUs, and persistent shopping carts.
- Architected 15+ secure REST endpoints supporting full CRUD operations, ensuring reliable data flow and a consistent user experience across all product and order management workflows.
- Improved MongoDB performance through structured schema design and strategic indexing, cutting average query time by 45% and scaling the application to handle 200+ concurrent requests.
